

Metodologie di project management nei progetti di ricerca

Attilio Gaetano Sequi
agsequi@uniss.it

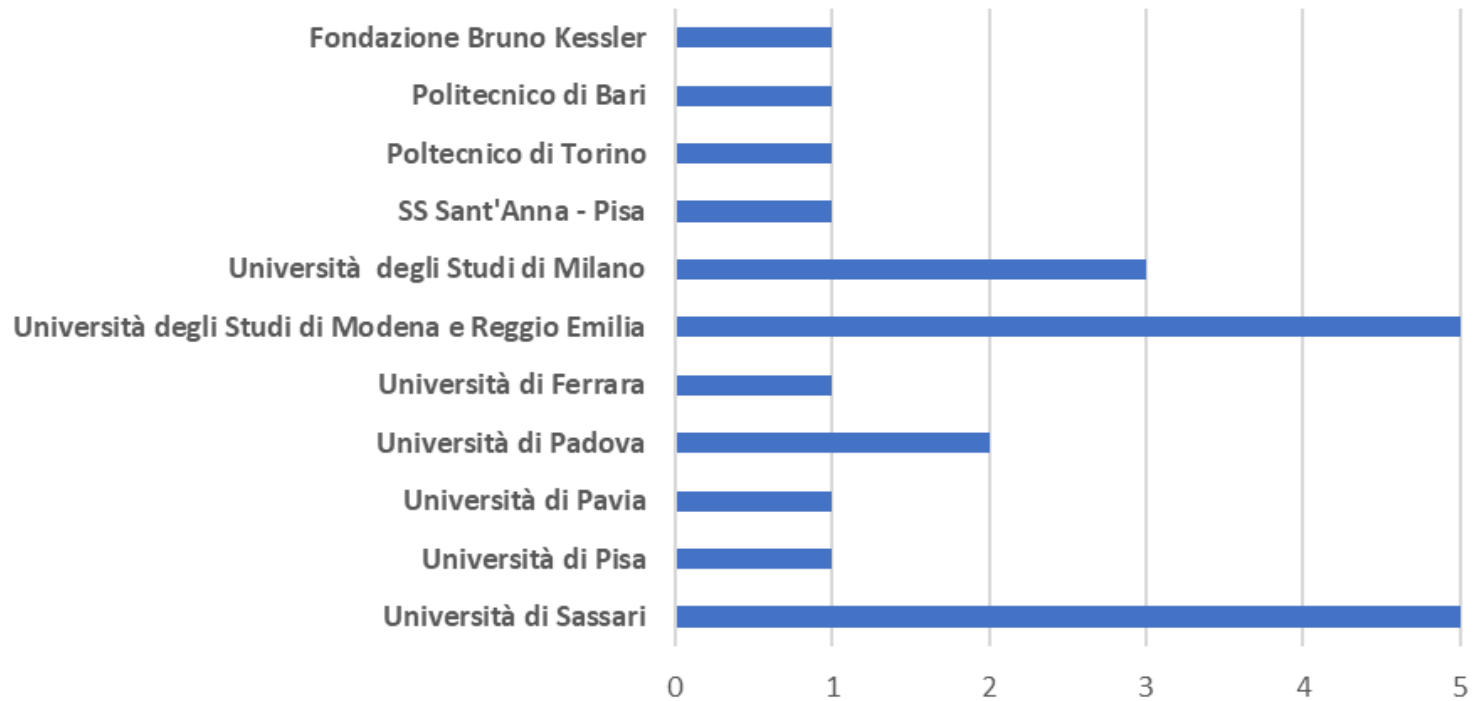

Lo scopo

Studiare i maggiori standard di project management a livello internazionale per verificarne le modalità di applicazione nei progetti di ricerca

Gli strumenti

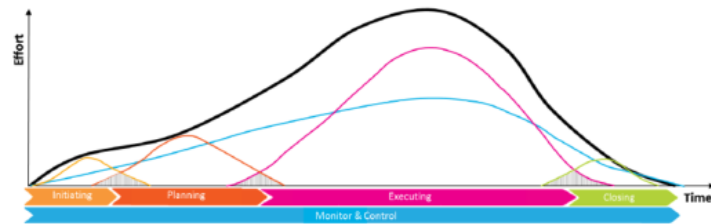

The screenshot displays a Microsoft Teams chat window. The top navigation bar includes a search field and a user profile icon. The left sidebar shows navigation options: Activity, Chat, Teams (selected), Meetings, Files, Assignments, and Store. The main chat area is titled "Metodologie di project management > General" and shows a list of guests added to the team by Attilio Sequi. A message from Attilio Sequi reads: "Benvenuti, Vi prego di dare riscontro dell'avvenuta connessione. Grazie". Below it, Marco Filippozzi (Guest) replies "ok per me, grazie marco", and SEQUI Attilio Gaetano (Guest) replies "Grazie mille!". The chat interface includes a bottom input field with a "Start a new conversation. Type @ to mention someone." prompt and various communication icons like reply, edit, emojis, GIFs, and video call.

L'attività

The PM² Lifecycle

Initiating	Define the desired outcomes, create a Business Case, define the project scope, and get the project off to a good start.
Planning	Assign the Project Core Team, elaborate the project scope, and plan the work
Executing	Coordinate the execution of the project plans. The team produces the project's deliverables
Closing	Coordinate the project's formal acceptance, report on the project's performance, capture lessons learned and post project recommendations, and administratively close the project
Monitor & controlling	Throughout the project's duration, monitor and control all project work and management activities. Monitor project variables, measure progress, manage changes, address risks and issues and identify corrective actions as per the project's needs

I prossimi passi

- Ampliare il numero dei partecipanti
- Ridistribuire e rischedulare l'esame delle metodologie
